

LiCl Solution

Storage: RT, 1 year

Introduction:

Lithium chloride molecular formula LiCl, molecular weight 42.39, LiCl solution by lithium chloride, ultra-pure water composition, is a variety of scientific research reagents basic components, widely used.

Cat No.	Product	feature
IL9001	5M LiCl (Non-Sterile)	No special treatment
IL9003	8M LiCl (Non-Sterile)	
IL9000	5M LiCl (Sterile)	0.22μm filter membrane to remove bacteria
IL9002	8M LiCl (Sterile)	
IL9004	5M LiCl (RNase free)	A molecular cloning experimental solution commonly used to precipitate RNA.
IL9005	8M LiCl (RNase free)	

Protocols (only for reference):

Please use according to specific experimental requirements.

Note:

1. Please use the reagents as soon as possible after opening them to avoid affecting the subsequent experiment results.
2. For your safety and health, please wear a laboratory coat and use disposable gloves when operating.
3. This reagent is for research use only and is not intended for clinical diagnosis or other purposes.
4. If you need customized products, please contact us.
